IMPORTANT NOTE REGARDING MOTORIZED AWNINGS SPECIFICATIONS

7700, 8700

All awnings listed as "Motorized" include a **SIMU** by Somfy RTS manual override motor with an 18' cord and single channel transmitter. Other somfy motors may be ordered and priced by adding the "Manual" Awning price to the motor package price listed on page #19.

K300, G250, G150

Package includes 500 Series Somfy Sunea Self-Tensioning CMO motor, 18' plug in cord and Somfy remote control for awnings up to 26' wide.

* Sattler Fabric available for a \$2.00 per yard up-charge.

*All awnings over 26' are spliced and shipped with a split fabric roller and will require field assembly. 1-piece fabric cover must be specified if desired, but is not an option on the G250 over 26' wide.
